About the Conference

The Foundation Institute and the Department of Foreign Languages at the University of Nizwa invite scholars, researchers, educators, language professionals, and practitioners from Oman and around the world to submit original research and scholarly contributions to the 2nd University of Nizwa International Conference on English Language Teaching (ELT).

The conference will be held in a hybrid format, combining in-person and online participation to provide opportunities for researchers and educators from Oman and around the world to participate and engage in scholarly exchange.

Building on the success of the inaugural conference, the event will explore "Implementation of Future Skills in the Age of AI: ELT through Digital Pedagogies, Translation, and Literature." We welcome original research papers, innovative classroom practices, theoretical perspectives, and interdisciplinary contributions related to the conference theme.

In addition, education professionals from different academic institutions across Oman are invited to showcase their research, classroom practices, projects, and innovative work through a dedicated Poster Presentation, providing an opportunity to exchange ideas and engage with academics and fellow participants.

The conference will provide a platform for sharing research, exchanging ideas, fostering scholarly dialogue, and building professional connections across ELT, artificial intelligence, digital pedagogies, translation, literature, and future skills.

Selected high-quality papers may be considered for publication in a special issue of a Scopus-indexed journal, subject to the journal's editorial and peer-review processes.

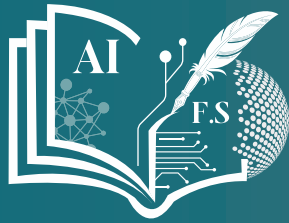

Share your research. Showcase your work. Shape the future of ELT.

Publication Opportunity: Selected full papers presented at the conference may be considered for publication in a special issue of the Arab World English Journal (AWEJ), a well-established international journal in the field of English language teaching and applied linguistics, subject to the journal's standard peer-review, processing, and acceptance terms. Please read the submission guidelines: <https://awej.org/submission/>
