UoN International ELT Conference

UoNELTC2027

► About the Conference

The University of Nizwa warmly invites scholars, educators, researchers, language professionals, and students to the 2nd University of Nizwa International Conference on English Language Teaching (ELT).

Under the theme “Implementation of Future Skills in the Age of AI: ELT through Digital Pedagogies, Translation, and Literature,” the conference brings together diverse perspectives on the future of language education.

The conference will be held in a hybrid format, enabling participants to join in person or online from Oman and around the world. A dedicated Poster Presentation will also provide education professionals from different institutions across Oman with an opportunity to showcase their research, exchange ideas, and engage with academics and fellow researchers.

Join us as we connect ideas, inspire innovation, and shape the future of ELT in an era of rapid technological and educational transformation.

The conference timeline

6 October 2026
Conference Registration
Opens

29 December 2026
