الرسالة

##### شروط القبول في برنامج ماجستير التربية في الإرشاد والتوجيه:

- الحصول على درجة البكالوريوس في التربية أو ما يعادلها في مجال اللغة العربية من جامعة معترف بها أو الحصول على درجة البكالوريوس في آداب اللغة العربية (شريطة دراسة مساقات استدراكية في التربية) أو الحصول على بكالوريوس لغة أجنبية شريطة دراسة مساقات استدراكية في اللغة العربية والتربية. وفي كل الحالات يكون الحد الأدنى للمعدل التراكمي (2.5) حسب مقياس التقدير من (4.0) أو ما يعادلها.
- اجتياز المقابلة الشخصية والأكاديمية.

##### فرص العمل:

تنبع الحاجة إلى هذا البرنامج من الضرورات التي يفرضها سوق العمل وحاجته المتزايدة إلى خريجين على درجة عالية من الكفاءة لممارسة تدريس اللغة العربية للناطقين بغيرها، حيث تشهد السلطنة والمنطقة طلبا متزايدا على تعلم اللغة العربية للناطقين بغيرها، مما يستلزم وجود بنية تحتية مناسبة تقدم الخدمات التعليمية المناسبة وتستوفي الشروط المعيارية المعتمدة في العالم، وهذا يتطلب في البداية إعداد دراسة لسوق العمل وحاجاته ومتطلباته.

## College of Arts and Sciences

### Department of Foreign Languages

### Master of English Literature

#### About the department:

The Department of Foreign Languages, University of Nizwa offers MA Degree in LITERATURE. This graduate program is a professional one that is designed and programmed to meet the professional competence and requirements of Oman, GCC countries, and the entire world. The program is based on a design-intensive professional curriculum centered on a sequence of courses. Complementary core and elective courses are organized to provide flexibility in individual program design and create opportunities to explore the discipline as well as focus on subject areas related to research and field interests.

#### Master of English Literature

Program Core Courses	12	The Master Degree in LITERATURE requires 30 credits. The time limits for this graduate degree are four semesters (Full-Time) or six semesters (Part-Time).
Program Elective Courses	12	
Master Thesis	6	

#### Master of English Literature Admission Requirements:

1. A bachelor's degree in English LITERATURE. The bachelor's degree in closely related fields such as English Language Studies may be asked to attend additional suitable bridging courses before the start of the program.
2. University has the right to accept candidates from Language Studies or equivalent under the condition of passing additional suitable bridging courses before starting the program.
3. An undergraduate CGPA of at least 2.7 on a 4.0 scale is required.
4. English proficiency as evidenced by a minimum TOEFL score of 550 or an IELTS band score of 6.
5. Pass the interview held by the department.

#### Career Opportunities:

The Master Degree in Literature will give more scope and advantages for graduates to pursue different cadres of jobs and employment opportunities. The graduates will serve society in a wide variety of rich and rewarding fields – in the field of literary studies and research and be leaders in a good number of satisfying career opportunities in Oman and GCC countries.

#### The Master Degree in Literature will enable you:

- To study the field of English literature and cultural studies and explore the global trends in literary and cultural creative and critical production.
- To lead teams and collaborate with stakeholders to address and resolve arising issues in forming the literary and cultural scenes in the country.
- To evaluate critically recent research in literary and cultural studies, assess its validity, and integrate research in culture-based issues.

## College of Arts and Sciences Department of Foreign Languages

### Master of Teaching English to Speakers of Other Languages (TESOL) in English

#### About the department:

The Department of Foreign Languages, University of Nizwa offers MA Degree in TESOL. This graduate program is a professional one that is designed and programmed to meet the professional competence and requirements of Oman, GCC countries, and the entire world. The program is based on a design-intensive professional curriculum centered on a sequence of courses. Complementary core and elective courses are organized to provide flexibility in individual program design and create opportunities to explore the discipline as well as focus on subject areas related to research and field interests.

#### Master's degree in TESOL

Program Core Courses	12
Program Elective Courses	12
Master Thesis	6

The Master Degree in TESOL requires 30 credits. The time limits for this graduate degree are four semesters (Full-Time) or six semesters (Part-Time).

#### Master's degree in TESOL Admission Requirements:

1. A bachelor's degree in TESOL. The bachelor's degree in closely related fields such as English Language Studies may be asked to attend additional suitable bridging courses before the start of the program.
2. University has the right to accept candidates from Language Studies or equivalent under the condition of passing additional suitable bridging courses before starting the program.
3. An undergraduate CGPA of at least 2.7 on a 4.0 scale is required.
4. English proficiency as evidenced by a minimum TOEFL score of 550 or an IELTS band score of 6.
5. Pass the interview held by the department.

#### Career Opportunities:

The Master Degree in Teaching English to Speakers of Other Languages (TESOL) in English will give more scope and advantages for graduates to pursue different cadres of jobs and employment opportunities. The graduates will serve society in a wide variety of rich and rewarding fields – in educational institutions and be leaders in a good number of satisfying career opportunities in Oman and GCC countries.

#### The Master Degree in TESOL will enable you:

- To apply advanced knowledge in pedagogical situations that will help to improve the quality of teaching-learning process.
- To lead teams and collaborate with stakeholders to address and resolve complex pedagogical and educational problems.
- To evaluate critically recent research, assess its validity, and integrate research in Teaching English to Speakers of Other Languages (TESOL) issues.

## College of Arts and Sciences

### Department of Biological Sciences and Chemistry

#### Doctor of Philosophy (PhD) in Chemistry

##### About the Department:

The University of Nizwa (UoN) is renowned for its teaching and research excellence, reflected in its high academic ranking. It has established a Ph.D. program in Chemistry aimed at addressing socio-economic needs through robust research infrastructure and well-equipped laboratories. The program seeks to build capacity, offer research and development training, and attract projects from public and private sectors. The Chemistry department features experienced faculty recognized for their teaching and research across various chemical sciences disciplines. They actively secure funding and engage in international collaborations, enhancing the university's professional reputation. The Ph.D. program aims to cultivate independent scientific research in chemical sciences among both Omani and international students, contributing to academic and socio-economic advancement.

##### Program Core Courses

18 Credits

##### Program Elective Courses

6 Credits

##### PhD Thesis

66 Credits

For the Ph.D. Program in Chemistry, applicants must commit to a minimum duration of three years, spanning 6 semesters. An extension of up to two years may be granted, subject to the discretion of relevant committees, including the supervising committee, graduate studies committee, and/or Deanship of Graduate studies. The program entails completion of 90 credit hours, divided into coursework (24 credits) and research/dissertation work (66 credits).

##### Doctor of Philosophy (PhD) in Chemistry Admission Requirements:

1. A Master's degree or its equivalent in Chemistry or a relevant specialty field from a recognized academic institution is required with a minimum CGPA of 3.00 or equivalent.
2. Relevant specialties may be considered with additional bridging courses.
3. Exceptional bachelor's degree holders who successfully complete the master's degree coursework at UoN may be eligible for enrollment in the Ph.D. program.
4. A minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
5. Three letters of recommendation, with at least two from academic sources, demonstrating the applicant's competence, interest, and research capability, are required.
6. An applicant statement of purpose in English, outlining motivation for the Ph.D. program and potential research interests, is necessary.

##### Career Opportunities:

1. Doctoral degree in Chemistry prepares graduates with education and research skills for successful careers.
2. Graduates are prepared for scientific roles in academia, research institutions, and industries impacting Oman.
3. Program offers advanced, internationally aligned research training for leadership in teaching, research, and scientific advancement globally.

## College of Arts and Sciences

### Department of Biological Sciences and Chemistry

#### Master of Science in Biological Sciences

##### About the Department:

The Department of Biological Sciences and Chemistry (DBSC) is committed to provide and maintain high quality curricula in natural sciences, expand and integrate undergraduate and graduate programs and employ state-of-the-art technologies. The department is offering M. Sc in Biological sciences program that is a blend of modern and contemporary topic in Biology with hands on practical training.

##### Master of Science in Biological Sciences

Program Core Courses	12 Credits
Program Elective Courses	12 Credits
Master Thesis	6 Credits

The M.Sc. in Biological Sciences is aimed to

- Develop expertise in cutting-edge areas of biological sciences,
- Enhance technical proficiency through hands on training and advanced laboratory methodologies

##### Master of Science in Biological Sciences Admission Requirements:

1. A bachelor's degree in chemistry or equivalent from a recognized university.
2. A minimum cumulative GPA of 2.5 on a 4-point scale or equivalent is required for admission into the Master Program.
3. Candidates with lower GPA may be admitted on a conditional basis and will be required to enroll in at least two bridging courses.
4. English proficiency testified with minimum IELTS score is 6.0, applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete English Language course at UoN.
5. Pass the interview.

##### Career Opportunities:

The M. Sc in Biological sciences graduates will be able to get jobs in both academia and research institutions as well as industry. These will not only teach better in schools but will also hold tremendous potential to embark on a research carrier. In addition, these will make an important contribution to Oman's workforce for ministries of agriculture, health and environment.

Deanship of Graduate Studies, Office Email: uon-dgs@unizwa.edu.om Phone:(+968)2544319

## College of Arts and Sciences

### Department of Biological Sciences and Chemistry

#### Master of Science in Chemical Sciences

##### About the Department:

The Department of Biological Sciences and Chemistry (DBSC) is committed to provide and maintain high quality curricula in natural sciences, expand and integrate undergraduate and graduate programs and employ state-of-the-art technologies. The department offers Masters of Chemical Sciences program (in two tracks *Applied Organic Chemistry & Instrumental Analytical Chemistry*) which is committed to academic and research excellence aligned with regional and global scientific priorities. The program provides advanced training in core and interdisciplinary areas of chemistry through coursework teaching and hands-on laboratory experience. The degree can be completed within four semesters (02 years) for Full-Time students or six semesters (03years) for Part-Time students.

##### Master of Science in Chemical Sciences

Program Core Courses	15 Credits
Program Elective Courses	9 Credits
Master Thesis	6 Credits

The M.Sc. in Chemical Sciences (*Applied Organic Chemistry & Instrumental Analytical Chemistry*) is aimed to

- Develop the students' ability in conducting independent research in his/her chosen area of specialization.
- Prepare the graduates for scientific careers in academic or research institutions, and in industry, particularly in research and development.

##### Master of Science in Chemical Sciences Admission Requirements:

1. A bachelor's degree in chemistry or equivalent from a recognized university.
2. A minimum cumulative GPA of 2.5 on a 4-point scale or equivalent is required for admission into the Master Program.
3. Candidates with lower GPA may be admitted on a conditional basis and will be required to enroll in at least two bridging courses.
4. English proficiency testified with minimum IELTS score is 6.0, applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete English Language course at UoN.
5. Pass the interview.

##### Career Opportunities:

The MSc in Chemical Sciences is particularly valuable for professionals pursuing careers in academia, research and development, the chemical and pharmaceutical industries, environmental management, and government regulatory bodies.

##### Contact Information:

Dr. Zakira Naureen, Head of Department Biological Sciences & Chemistry, Email: kira@unizwa.edu.om Tel: 25446538

## College of Arts and Sciences

### Department of Biological Sciences and Chemistry

#### PgD/MSc in Food Safety

##### About the Program:

The Postgraduate Diploma (PgD) and Master of Science (MSc) in Food Safety at the University of Nizwa (UoN) is a comprehensive graduate program designed to equip professionals with the scientific, regulatory, and technical expertise necessary to ensure the safety and quality of food products. This program addresses critical aspects of food safety, including food hygiene, analysis, laws and regulations, risk management, food innovation and entrepreneurship and practical applications in food inspection and product formulation. The PgD consists of two semesters with 24 academic credits hours, while the MSc extends to a third semester, culminating in a research project and thesis weighted with six credits. Students will gain in-depth knowledge of Food Sciences, Food Microbiology, Toxicology, Food testing, Risk Management, Food Inspection, Safety Management, and Regulatory Frameworks.

##### PgD/MSc in Food Safety

<b>Program Core Courses</b>	<b>18 Credits</b>	An exceptional aspect of this program is the opportunity for students to earn four internationally recognized ISO certifications upon successfully passing the final exams administered by the Gulf Accreditation Center, these certifications include: Risk Management (ISO 31000), Testing & Calibration Labs (ISO 17025), Accreditation of Inspection body (ISO 17020), Food Safety Management (ISO 22000).
<b>Program Elective Courses</b>	<b>6 Credits</b>	
<b>Master Thesis</b>	<b>6 Credits</b>	

##### PgD/MSc in Food Safety Admission Requirements:

1. A bachelor's degree in food science or closely related fields such as Biology, Biotechnology, Chemistry, Food nutrition, or Pharmacy.
2. A CGPA not lower than 2.5 on a 4.0 grading scale. Candidates with a lower CGPA (2.0) can be accepted provided that he/she has two (2) years of experience in the field of specialization.
3. English proficiency testified with minimum IELTS score is 6.0, applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete English Language course at UoN
4. Pass the interview.

##### Career Opportunities:

The PgD/MSc in Food Safety is particularly valuable for professionals working in food inspection, quality control, regulatory affairs, health and safety, environmental management, food research development and entrepreneurship.

## College of Arts and Sciences

### Department of Biological Sciences and Chemistry

#### Postgraduate Diploma in Laboratory Sciences

##### About the Department:

The Department of Biological Sciences and Chemistry (DBSC) is committed to provide and maintain high quality curricula in natural sciences, expand and integrate undergraduate and graduate programs and employ state-of-the-art technologies. The Postgraduate Diploma (PgD) in Laboratory Sciences offered by DBSC is aimed to provide students with comprehensive knowledge and practical skills in laboratory sciences, with particular emphasis on hands-on training in modern analytical instrumentation and testing techniques, real time exposure to clinical skills, and broadening professional experience. selection and use of appropriate methods and techniques.

##### Postgraduate Diploma in Laboratory Sciences

Program Core Courses	30 Credits
Semester 1	15 Credits
Semester 2	15 Credits

The postgraduate diploma in laboratory sciences is designed to

- Empower students with the theoretical knowledge and practical skills to work as laboratory technicians in different laboratory settings (medical, pharmaceutical, environmental, and industries).
- Develop student skills in research and ethical principles in laboratory sciences.
  - Develop skilled workforce of Oman.

##### Postgraduate Diploma in Laboratory Sciences Admission Requirements:

- Bachelor's degree in chemistry, Biology, Physics certificate or equivalent with CGPA 2.5/ 4.0. Students with a lower CGPA can be accepted if they have 2 years of work experience
- Acceptable level of English proficiency proof (IELTS 5.5 or equivalent). Applicants can enroll in the foundation program to improve their efficiency in English and obtain the required score.
- Pass the interview.

##### Career Opportunities:

The PgD in Laboratory Sciences will enable the students to pursue higher education or embark on a professional journey environmental, clinical, schools, municipality, food testing laboratories and geomicrobiology.

## College of Arts and Sciences

### Department of Mathematical and Physical Sciences (DMPS)

#### Master of Science in Applied Mathematics

##### About the Department:

The Mathematics Section of the Department of Mathematical and Physical Sciences (DMPS) offers M.Sc. in Applied Mathematics. This graduate program aims to equip students with cutting-edge knowledge in applied Mathematics, enhancing quantitative skills and critical thinking. The program is designed to ensure adherence to professional ethics, promote lifelong learning, and provide hands-on research experience for effective communication and leadership readiness. Graduates emerge prepared for careers in Mathematics or further academic pursuits.

##### M.Sc. in Applied Mathematics:

Program Core Courses	12 credits
Program Elective Courses	12 credits
Master Thesis	6 credits

A 30 credits M.Sc. program in Applied Mathematics offers a comprehensive curriculum that balances theoretical knowledge with practical applications. Core courses cover topics such as differential equations, applied analysis, and numerical methods. Students can choose electives in areas like modeling, optimization, and computational mathematics. The program is designed for those with strong mathematical backgrounds and prepares graduates for careers in research, industry, and academia.

##### M.Sc. in Applied Mathematics Admission Requirements:

The aspiring candidate must:

1. Have a BSc in Mathematics, or a related field, from a university recognized in Oman, with a minimum GPA of 2.5.
2. Have a TOEFL Score of 550 or IELTS with 6.0 bands, applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete an English Language course at UoN.
3. Satisfy all admission requirements outlined in the general guidelines for Masters Degrees of the University of Nizwa.
4. Pass an admission interview.

##### Career Opportunities:

The Master of Applied Mathematics is designed to provide a comprehensive view of some of the major fields of interest in Mathematics and to develop the students' ability in conducting independent research in his/her chosen area of specialization. Graduates will be prepared for scientific careers in academic and/or research institutions, and in industry with strong capability in research and development.

##### M.Sc. in Applied Mathematics – Competitive Advantage:

The M.Sc. in Applied Mathematics will enable you to acquire:

- Apply their knowledge to modern applications of mathematics.
- Secure acceptance for higher studies in applied mathematics
- Communicate their knowledge in an effective way orally, in writing and electronically and work effectively in teams.
- Demonstrate ethical and professional behavior at their workplaces and beyond.

## College of Arts and Sciences

### Department of Mathematical and Physical Sciences (DMPS)

#### Master of Science in Computer Science

##### About the Department:

The Computer Science Section of the Department of Mathematical and Physical Sciences (DMPS) offers M.Sc. in Computer Science. This graduate program aims to equip students with cutting-edge knowledge in Computer Science and related fields, enhancing quantitative skills and critical thinking. The program is designed to ensure adherence to professional ethics, promote lifelong learning, and provide hands-on research experience for effective communication and leadership readiness. Graduates emerge prepared for careers in Computer Science or further academic pursuits.

##### M.Sc. in Computer Science

Program Core Courses	12 credits
Program Elective Courses	12 credits
Master Thesis	6 credits

A 30 credits M.Sc. program in Computer Science provides advanced knowledge, hands-on training, and research exposure in one of four specialized pathways: 1) Data Science, 2) Networks, 3) Multimedia Processing, and 4) Software Engineering. Grounded in theoretical computer science and modeling, the program aims to strengthen students' research capabilities. Applicants from non-computer science backgrounds may be required to complete bridging courses to address any foundational gaps.

##### M.Sc. in Computer Science Admission Requirements:

The aspiring candidate must:

1. Have a BSc in Computer Science, or a related field, from a university recognized in Oman, with a minimum GPA of 2.5.
2. Have a TOEFL Score of 530 or IELTS with 6.0 bands, applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete an English Language course at UoN.
3. Satisfy all admission requirements outlined in the general guidelines for Masters Degrees of the University of Nizwa.
4. Pass an admission interview.

##### Career Opportunities:

The M.Sc. in Computer Science as a unique program will give more scope and advantages for graduates to pursue different cadres of jobs and employment opportunities in the four main areas of Computer Science. The graduates will serve society in a wide variety of rich and rewarding fields – especially 1) Data Science, 2) Networks, 3) Multimedia Processing and 4) Software Engineering - and be leaders in a good number of satisfying career opportunities in Oman and GCC countries.

##### M.Sc. in Computer Science – Competitive Advantage:

The M.Sc. in Computer Science will enable you to acquire:

- Comprehensive Knowledge: Equipped with state-of-the-art knowledge and quantitative skills in Computer Science and related fields, enabling them to analyze complex problems effectively.
- Critical Thinking: Enhanced critical thinking abilities prepare graduates to tackle unseen challenges and contribute innovative solutions.
- Practical Experience and Research Culture: Through a year-long research project and exposure to research groups, graduates gain practical experience, effective communication skills, and leadership readiness, distinguishing them in professional settings.

## College of Economics, Management & Information Systems

### Doctor of Philosophy (Ph.D.) in Business Studies

#### About the Department

The Department of Management offers a range of undergraduate and graduate programs, including diploma, bachelor, master, and doctoral degrees. At the undergraduate level, the department offers diploma and bachelor's degrees in business administration, Marketing, Operations Management, and Tourism and Recreational Facilities Management. Graduate programs include a Master of Business Administration (MBA), Executive Master of Business Administration (EMBA) and a Ph.D. in Business Studies. Our teaching approach integrates theory with practice, fostering critical and analytical thinking to equip students with the skills needed for professional success.

#### Doctor of Philosophy (PhD) in Business studies

General Courses	12 Credits
Specialization courses	12 Credits
Thesis	48 Credits

The Ph.D. in Business Studies program offers a range of specializations including Business Management, Information Systems, Accounting, and Finance, and Marketing, and Operations Management. The program consists of coursework and Thesis.

#### Admission Requirements

1. A master's degree in Business or any relevant area from a recognized institution with a minimum CGPA of 3.00 or equivalent.
2. Candidates with a CGPA between 2.75 and 3.00 may be admitted conditionally and must complete bridging courses with at least a grade B in each.
3. A minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
4. Three recommendation letters, with at least two from academics endorsing the applicant's research potential.
5. A Statement of Purpose outlining motivation and research interests.
6. Priority given to candidates with research experience.
7. Pass the interview
8. Additional documents or remedial courses may be required.

#### Career Opportunities

A Ph.D. in Business Studies opens up a wide range of career opportunities across academia, industry, government, and international organizations. Graduates can pursue academic careers as university professors, researchers, or mentors, shaping the next generation of business leaders. In the corporate world, they may take on senior management roles such as CEO, COO, or General Manager, providing strategic leadership in both the private and public sectors. As consultants, they can serve as Management Consultants or Strategy Advisors, helping organizations enhance performance and drive growth. In the public sector, roles such as Policy Advisor or Economic Development Director enable them to contribute to policymaking and national development. Additionally, Ph.D. holders may become entrepreneurs or venture capitalists, launching new ventures or investing in promising startups. Opportunities also exist within international organizations, where they can apply their expertise on a global scale.

#### The Competitive Advantage of Ph.D. in Business Studies at University of Nizwa

- **Strong Academic Reputation** - The academic excellence and reputation of the UoN locally and internationally.
- **Expertise in Research & Innovation** – Access to a diverse faculty with significant expertise in various business disciplines who can support in developing advanced research skills to contribute to cutting-edge business knowledge, publish in top journals, and drive industry innovation.
- **Leadership & Strategic Decision-Making** – Gain high-level analytical and problem-solving abilities to excel in executive roles, consultancy, and policymaking.
- **Flexible Study options:** Options for part-time or full-time study, accommodating the needs of working professionals who wish to pursue advanced education.

## Executive Master in Business Administration (EMBA)

### About the Department

The Department of Management offers a range of undergraduate and graduate programs, including diplomas, bachelor, master, and doctoral degrees. At the undergraduate level, the department offers diploma and bachelor's degrees in Business Administration, Marketing, Operations Management, and Tourism and Recreational Facilities Management. Graduate programs include a Master of Business Administration (MBA), Executive Master of Business Administration, and Ph.D. in Business Studies. Our teaching approach integrates theory with practice, fostering critical and analytical thinking to equip students with the skills needed for professional success.

### Executive Master in Business Administration

Core Courses	<b>24 Credits</b>
Elective courses	<b>6 Credits</b>
Total Credits	<b>30 Credits</b>

The EMBA program is designed for senior executives and business owners to equip them with the necessary skills and tools needed in today's dynamic and fast-changing business environment. The program is designed specifically to meet the needs of managers with minimal disruption to their work commitments.

### Admissions Requirements

1. A minimum work experience of two years in a managerial position.
2. A bachelor's degree from a recognized university.
3. Minimum cumulative GPA of at least 2.5 out of 4.
4. English Language Proficiency: Minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
5. Pass the interview.

### Career Opportunities

- An Executive Master of Business Administration (EMBA) opens door to prestigious career opportunities worldwide.
- Attain leadership positions in private and public organizations such as Chief Executive Officer (CEO), Chief Financial Officer (CFO), Corporate Strategist, General Manager, Operations Director, and Marketing Director.
- Launch and grow businesses as an entrepreneur or invest as a venture capitalist.
- Work as a management consultant or strategy advisor, helping organizations grow and improve.
- Work with global institutions, shaping economic and business landscapes worldwide.

### Competitive Advantages of the EMBA Program

- Our EMBA program is led by faculty with strong industry links and have gained global recognition in their discipline.
- The core courses enable EMBA students to bring new ideas and skills to their workplace and put them to work right away.
- Flexible scheduling (weekend, online courses, blended learning) to accommodate busy professionals.
- Use cutting-edge technologies and interactive teaching methods to enhance learning.

## Master in Business Administration (MBA)

### About the Department

The Department of Management offers different programs at undergraduate and graduate levels, including diplomas, bachelor's, and master's degrees. Specifically, at the undergraduate level, the department offers both diploma and bachelor degrees in Business Administration, Marketing, Operations Management, and Tourism and Recreational Facilities Management. At the graduate level, the department offers a master's degree in Business Administration. In teaching, we combine theory and practice and foster critical and analytical thinking in our students to develop the necessary skills to succeed in their chosen careers.

### Master in Business Administration

Core Courses	27 credits
Elective Courses	6 credits
Master Project	3 credits

The MBA program is designed to prepare students for leadership positions in various sectors. The program emphasizes the development of candidates 'strategic thinking, ethical decision-making, and their ability to analyze and solve complex business problems, aligns with this objective.

### Admission Requirements

1. A bachelor's degree in any business major from a recognized university. Candidates from a non-business background may be admitted provided that they complete some bridging courses before starting the program.
2. Minimum cumulative grade point average (CGPA) of 2.5 on a 4.0 scale.
3. English Language Proficiency: Minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
4. Pass the interview.

### Career Opportunities

The MBA program offers great career opportunities across various industries. It plays an important role in one's growth, development and transformation into a complete professional with all the required skill sets. MBA graduates occupy top positions in companies across industries and some of the world's best-known firms. There are career opportunities and jobs for MBA graduates in every industry. MBA graduates occupy senior positions in government, healthcare, consumer goods; in big companies, startups, and small and mid-size enterprises (SMEs).

**Competitive Advantage:** Our master's program will enable you to:

- Take on leadership roles in private and public sector organizations
- Learn about contemporary business practices, trends, issues, and challenges facing organizations nowadays
- Lead teams and collaborate with stakeholders to address and resolve complex business problems.

# College of Economics, Management, and Information Systems

## Master of Science in Information Systems

### About the Department

The Department of Information Systems offers programs at undergraduate and graduate levels, including Diplomas, Bachelor's, and Master's degrees. Specifically, at the undergraduate level, the department offers both Diploma and Bachelor degrees in Information Systems, and Web Design and Information Security. At the graduate level, the department offers a Master's degree in Information Systems. In teaching we combine theory and practice and we foster analytical and critical thinking in our students to develop the necessary skills to succeed in their chosen careers.

### Master of Science in Information Systems (M.Sc. in IS)

Core Courses	18 credits
Elective Courses	6 credits
Master Thesis	6 credits

The program is designed by complying with market need and trends where students will have chance to explore and chance to make them ready for future market. We run the program by ensuring frequent program review, expert instructor, up-to-date course materials, engaging delivery method, practical assessment components etc. Each of our courses are distinct with learning outcome and each outcome leads market need.

### Admission Requirements

1. A Bachelor's degree in information systems or related fields from a recognized university. Candidates from other majors may be admitted provided that they complete some bridging courses before starting the program.
2. Minimum cumulative grade point average (CGPA) of 2.5 on a 4.0 scale.
3. English Language Proficiency: Minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
4. Pass the interview.

### Career Opportunities

A Master's degree in Information Systems offers graduates wider scope and advantages in pursuing different careers and employment opportunities. Program graduates may work in different senior positions including Chief Information Officer (CIO), Information Systems Manager, Business Analyst, IT Consultant, Systems Analyst, Database Administrator (DBA), Project Manager, Data Analyst, Network Administrator, Cybersecurity Analyst, IT Auditor, and E-commerce Manager.

### Competitive Advantage: Our Master's program will enable you to:

- Learn about advanced information technologies, software development practices, and modern methodologies used to design and implement robust information systems.
- Lead teams and collaborate with stakeholders to address and resolve complex information system problems.
- Evaluate critically recent research, assess its validity, and integrate research in information systems.
- Take on leadership roles within IT departments or technology companies.

## College of Economics, Management, and Information Systems

### Master of Arts in Economics

#### About the Department

The Department of Economics and Finance offers programs at undergraduate and graduate levels, including diplomas and bachelor's degrees in Economics and Finance, Finance and International trade and a master's degree in Economics. We combine theory and practice and foster critical and analytical thinking in our students to develop the necessary skills to succeed in their chosen careers.

#### M.A. in Economics

Core Courses	18 Credits
Elective Courses	6 Credits
Master Thesis	6 Credits

The Master of Arts (MA) in Economics is designed to provide students with a strong foundation in economic theory, quantitative methods, and applied analysis. The program equips graduates with the analytical tools and critical thinking skills necessary to address complex economic challenges in both public and private sectors.

#### Admission Requirements

1. A bachelor's degree in economics from a recognized university. Candidates from other majors may be admitted provided that they complete some bridging courses before starting the program.
2. Minimum cumulative grade point average (CGPA) of 2.5 on a 4.0 scale.
3. English Language Proficiency: Minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
4. Pass the interview.

#### Career Opportunities

The economics field is expected to see substantial growth over the next decade due to the increase in available data across industries and the need for professionals with the appropriate training and skills to turn that data into actionable insights. The evolution of the field brings an increase in opportunities for those with a graduate degree in economics. Graduates of the program may serve as – but not limited to- economists, university professors, data scientists, and financial analysts. The program also serves as a stepping-stone for perusing a Ph.D. degree and other professional studies.

**Competitive Advantage:** Our master's program will enable you to:

- Evaluate the impact of a variety of cultural and environmental factors on economic policy and business decisions
- Analyze factors that influence economic decision making in firms and government
- Identify strategic issues and solutions in relation to economic problems and activity within firms and government

## About the Department

The Department of Accounting offers academic programs at undergraduate and graduate levels, including diplomas, bachelor's, a master's degrees in Accounting, and a PhD in Business Studies with specialization in Accounting. Our curriculum provides a balanced foundation of theoretical knowledge and practical skills essential for today's business environment. We emphasize critical thinking, problem-solving, and ethical awareness to prepare students for the demands of the accounting profession. Through classroom learning, case studies, and applied projects, we help students build the skills to excel across industries.

## Master of Science in Accounting

Core Courses	18 Credits
Elective Courses	6 Credits
Master Thesis	6 Credits

In line with global advancements, our master's program incorporates emerging technologies, sustainability principles, and industry practices. The program develops expertise to navigate contemporary financial systems and complex regulatory landscapes. With a focus on integrity, transparency, and professional readiness, the program prepares graduates to lead in a rapidly evolving financial world.

## Admission Requirements

1. A bachelor's degree in accounting from a recognized university. Candidates from other majors may be admitted provided that they complete some bridging courses before starting the program.
2. Minimum cumulative grade point average (CGPA) of 2.5 on a 4.0 scale.
3. English Language Proficiency: Minimum IELTS score is 6.0 or equivalent in TOEFL. Applicants scoring 5.0 or 5.5 can be admitted conditionally, provided they complete an English Language course at UoN.
4. Pass the interview.

## Career Opportunities

The program is designed for students who wish to acquire high-level expertise in the dynamic field of accounting-related careers. The program is structured to equip professionals with the essential knowledge and the 21st-century skills required to gain a competitive edge in the field of Accounting. In addition, the program is highly attractive for all ambitious professionals who aspire to take a leading role as accountant/researcher/consultant in various organizations including government, non-government and social enterprises. The program also serves as a stepping-stone for pursuing Ph.D. and other professional studies.

## Competitive Advantage: Our Master's program will enable you to:

- Extend your technical competencies in financial reporting and analysis, managerial decision-making, tax compliance and planning, and risk assurance and compliance testing.
- Develop your leadership and cross-functional management skills.
- Sharpen your essential professional competencies including: critical thinking skills, effective communication skills, ability to work effectively in teams, and data analytics skills.
- Develop your awareness of the needs of communities beyond the boundaries of your profession

## College of Engineering and Architecture

### Department of Chemical and Petrochemical Engineering

# Master of Science in Chemical Engineering

## About the Department:

The Department of Chemical and Petrochemical Engineering (DCPE), University of Nizwa offers M.Sc. in Chemical Engineering. The program has been designed to provide a greater depth of knowledge in aspects of advanced chemical engineering and a range of up-to-date process technologies. These will enable candidates to design, operate and manage processes and associated manufacturing plants and to provide leadership in innovation, research and technology transfer. This graduate program is designed to meet the professional competence and requirements of Oman, GCC countries, and the entire world.

## M.Sc. In Chemical Engineering curriculum:

Program Core Courses	12 Credits
Program Elective Courses	12 Credits
Master Thesis	6 Credits

The M.Sc. In Chemical Engineering requires 30 credits. The time limits for this graduate degree are four semesters (Full-Time) or six semesters (Part-Time). Additional suitable bridging courses may be required from applicants who come from equivalent undergraduate engineering majors.

## M.Sc. In Chemical Engineering Admission Requirements:

1. A bachelor's degree in chemical engineering or closely related fields such as chemical process engineering, biochemical engineering, biotechnology.
2. An undergraduate GPA of at least 2.5 on a 4.0 scale is required.
3. Candidates from other disciplines in Engineering or Science may be required to attend additional bridging courses before starting the program.
4. The minimum IELTS score is 6.0. Applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete English Language course at UoN.
5. Pass the interview held by the department.

## Career Opportunities:

Students graduating from this program are qualified to work in many companies of oil and power, chemical industries, research and development, consultancy, academic institutions etc. Graduates also have the opportunity to complete their PhD and have a strong foundation for a comprehensive, challenging and exciting career with a wide range of job opportunities in Oman and across the world.

## M.Sc. In Chemical Engineering – Competitive Advantage:

The M.Sc. in Chemical Engineering will enable you:

- To apply advanced knowledge in forefront of scientific and technological developments.
- To develop a wide skill set such as: project management, resource management, teamwork, leadership, oral and written communication and problem-solving ability.
- To lead teams and collaborate with stakeholders to address and resolve complex Chemical Engineering issues.
- To evaluate critically recent research, assess its validity, and integrate research in Chemical Engineering problems.

## College of Engineering and Architecture

### Department of Civil and Environmental Engineering

# Master of Science in Structural Engineering

## About the Department:

The Department of Civil and Environmental Engineering (DCEE), University of Nizwa offers M.Sc. in Structural Engineering. This program designed to meet the needs of aspiring civil engineering graduates, working professionals in the Sultanate of Oman, and other national and international students. This graduate program will provide University of Nizwa graduates a path for obtaining advanced education in structural engineering. The uniqueness of this program is reflected by the elective courses, which were selected based on Oman's specific needs such as Structural Masonry, which is very important in Oman due to existing of historical buildings and this will provide the students required knowledge for the analysis and repair and rehabilitation of historical structures.

## M.Sc. In Structural Engineering curriculum:

Program Core Courses	12 Credits
Program Elective Courses	12 Credits
Master Thesis	6 Credits

The M.Sc. In structural Engineering requires 30 credits. The time limits for this graduate degree are four semesters (Full-Time) or six semesters (Part-Time). Additional suitable bridging courses may be required from applicants who come from equivalent undergraduate engineering majors.

## M.Sc. In Structural Engineering Admission Requirements:

1. A bachelor's degree in Civil engineering mainly. The bachelor degree in closely related fields such as Quantity Surveying and Construction Management, Construction Engineering, Construction Technology may be asked to attend additional suitable bridging courses before the start of the program.
2. University has the right to accept candidates from other disciplines in engineering or science under the condition of attending additional suitable bridging courses before starting the program.
3. An undergraduate CGPA of at least 2.5 on a 4.0 scale is required.
4. The minimum IELTS score is 6.0. Applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete English Language course at UoN.
5. Pass the interview held by the department.

## Career Opportunities:

The M.Sc. in Structural Engineering, as a specialized and advanced program, will provide graduates with broader scope and greater advantages in pursuing diverse career opportunities. Graduates will contribute to society through a wide range of dynamic and rewarding roles such as structural engineers, construction managers, project consultants, infrastructure analysts, and researchers; and become leaders in numerous fulfilling career paths within Oman and the internationally.

## M.Sc. In Structural Engineering – Competitive Advantage:

The M.Sc. program in Structural Engineering will enable you:

- To integrate analytical and experimental methods for structural responses under various service and environmental loads.
- To focus on precise prediction of structural and material behavior to ensure safety, efficiency, and reliability.
- To explore the characteristics and implications of both static and dynamic loading conditions.
- To equip students with the tools to develop innovative, resilient, and cost-effective design strategies.
- To prepare graduates to lead in advanced structural engineering practice, research, and interdisciplinary collaboration. [For](#)

## College of Engineering and Architecture

### Department of Architectural Engineering and Interior Design

# Master of Science in Architectural Engineering

#### About the Department:

The Department of Architectural Engineering and Interior Design (DAID), University of Nizwa offers M.Sc. in Architectural Engineering. This graduate program is a professional one that is designed and programmed to meet the professional competence and requirements of Oman, GCC countries, and the entire world. The program is based on a design-intensive professional curriculum centered on a sequence of courses. Complementary core and elective courses are organized to provide flexibility in individual program design and create opportunities to both explore the discipline and focus on subject areas related to research and design interests.

#### M.Sc. In Architectural Engineering curriculum:

Program Core Courses	12 Credits
Program Elective Courses	12 Credits
Master Thesis	6 Credits

The M.Sc. In Architectural Engineering requires 30 credits. The time limits for this graduate degree are four semesters (Full-Time) or six semesters (Part-Time). Additional suitable bridging courses may be required from applicants who come from equivalent undergraduate engineering majors.

#### M.Sc. In Architectural Engineering Admission Requirements:

1. A bachelor's degree in Architectural Engineering or Architecture mainly. The bachelor's degree in closely related fields such as Structural Engineering and Construction Engineering may be asked to attend additional suitable bridging courses before the start of the program.
2. University has the right to accept candidates from Architectural Engineering or equivalent under the condition of passing additional suitable bridging courses before starting the program.
3. An undergraduate CGPA of at least 2.5 on a 4.0 scale is required.
4. The minimum IELTS score is 6.0. Applicants scoring 5 or 5.5 can be admitted conditionally provided that they complete English Language course at UoN.
5. Pass the interview held by the department.

#### Career Opportunities:

The M.Sc. in Architectural Engineering as a unique program will give more scope and advantages for graduates to pursue different cadres of jobs and employment opportunities. The graduates will serve society in a wide variety of rich and rewarding fields - in real estate business, architects, urban designers, site supervisors, landscape architects, project managers, etc. and be leaders in a good number of satisfying career opportunities in Oman and GCC countries.

#### M.Sc. In Architectural Engineering – Competitive Advantage:

The M.Sc. in Architectural Engineering will enable you:

- To apply advanced knowledge and technologies in unpredictable Architectural Engineering situations concerning building systems, materials, sustainability in design projects, aesthetic, cost-effective, and socially responsible.
- To lead teams and collaborate with stakeholders to address and resolve complex Architectural Engineering issues.
- To evaluate critically recent research, assess its validity, and integrate research in Architectural Engineering issues.

## College of Health Sciences

### MASTER OF HEALTH SCIENCES

#### Healthcare Leadership and Management/ Health Professions Education

#### About the School of Rehabilitation and Medical Sciences

The School of Rehabilitation and Medical Sciences (SRMS), established in 2022, comprises two main departments: Medical Rehabilitation and Medical Sciences. It offers both undergraduate and graduate programs aimed at producing highly competent graduates through a comprehensive, evidence-based education system. SRMS emphasizes lifelong learning, professional autonomy, critical thinking, and community engagement through community-based learning. It collaborates with prestigious national and international institutions to enhance academic quality and cultural relevance. The school's mission is to develop leaders and innovators who advance knowledge and improve quality of life in the fields of rehabilitation and medical sciences

#### Master of Health Sciences: Healthcare Leadership and Management/ Health Professions Education

Required Courses	6 credits
Elective Courses	2 credits
Master Thesis	6 credits
Professional Courses	9 credits
Specialty Courses	13 credits
Total	<b>Total 36</b>

Master of Health Sciences (MHS) program has two (2) different majors or specialty streams: 1) Healthcare Leadership and Management and 2) Health Professions Education. The Master of Health Sciences is a 2-year program comprising 36 credit hours, including coursework, practicum in the chosen stream, and a master's thesis. The practicum is designed to allow students to meet specific educational needs and develop expert skills. The master's thesis is an exercise that is an original piece of scientific research by the students, which has findings that can be published in peer-reviewed journals. The thesis will prepare the students for the next level of research practice within the discipline. Full-time students can complete the program in two years, while part-time students should be able to complete it in 3-4 years.

Admission Requirements	Career Opportunities	Competitive Advantage:
A bachelor's degree in any health sciences/equivalent degree from a recognized National or International university with a minimum CGPA of 2.5 on a 4.0 grading scale.	Healthcare Leadership: Unit/department heads in hospitals, healthcare institutions, and the Ministry of Health	Only one of its kind in Oman providing dual specialization
Candidates with a CGPA 2 to <2.5 on 4.0 grading scale must attend bridging courses assigned by the school and pass with B.	Academia: Lecturers, curriculum developers, and education specialists in health sciences	Aligns with Oman Vision 2040
Two year's work experience in health field.	Policy and Management: Health policy analysts, health services managers	Program benchmarked with leading global institutions
English proficiency with a minimum IELTS level 6, candidates with an IELTS 5 or 5.5 must attend the required English program as per the UoN regulations.	Research: Health sciences researchers and program evaluators	Hybrid delivery mode (flexible for working professionals)
Pass in the interview convened by the College of Health Sciences .		Strong practicum integration with real-world clinical and educational experiences
		Faculty with PhDs and international expertise

## College of Health Sciences

### Master of Science in Advanced Practice Nursing

#### About the School of Nursing

The School of Nursing at the University of Nizwa offers internationally aligned programs aimed at producing skilled, knowledgeable, and compassionate nursing professionals. It prepares graduates for roles in clinical practice, education, research, management, and leadership, addressing health needs in Oman and globally. With advanced facilities and a diverse, experienced faculty, the school fosters an environment that supports both local and international students in achieving their academic and career goals. It maintains strong ties with the healthcare industry, nursing institutions, and regulatory bodies to ensure its programs remain current and uphold high standards in nursing education and practice.

#### Master of Science in Advanced Practice Nursing

Core Courses	10 credits
Elective Courses	2 credits
Specialty Stream Courses	18 credits
Thesis	6 credits
<b>TOTAL</b>	<b>36 credits</b>

The **Master of Science in Advanced Practice Nursing (MScAPN)** is a two-year degree program designed to provide baccalaureate-prepared nurses with full understanding of Nursing as a discipline so that they can be more actively involved in more advanced practice, education and leadership in any healthcare setting and assume the advanced Nurse specialist roles in one of the five specialty streams:

- 1) Emergency and Critical Care
- 2) Community Health & Gerontology
- 3) Midwifery
- 4) Child Health
- 5) Adult Health

#### Admission Requirements:

- A bachelor's degree in nursing/equivalent degree from a recognized National or International academic institutions with a minimum CGPA of 2.5 on a 4.0 grading scale.
- Candidates with a CGPA 2 to <2.5 on 4.0 grading scale must attend bridging courses assigned by the school and pass with B.
- Nationals must have the license to practice Nursing in Oman. International candidates must pass the Omani Examination for Nurses by the Oman Medical Specialty Board.
- Minimum of two (2) years work experience that includes a minimum of 3-6 months in the specialty field of interest.
- English proficiency testified with minimum IELTS band score of 6.
- Candidates with IELTS band score of 5 or 5.5 must attend the required English program as per the UoN regulations.
- Pass the interview convened by the School of Nursing.

#### Career Opportunities and Advanced Practice Roles:

Graduates of a **Master of Science in Advance Practice Nursing** degree can find diverse career opportunities in various healthcare settings, including specialty hospitals, clinics, higher educational institutions, and research agencies.

This Master's degree will prepare graduates effectively for higher-level positions in their present or upcoming work settings. It paves the way for graduates to assume advanced roles such as: Nurse Specialists in specific patient populations, Nurse Educators, Nurse Administrators, Nurse Managers, Nursing Consultants, Telehealth/E-health Nurses, Public Health Nurses, Nurse Midwives, Research Nurses.

#### Competitive Advantage:

A **Master of Science in Advance Practice Nursing** degree program provides substantial competitive advantages that distinguish it from other programs in the Nursing field.

- Specialized Knowledge and Skills.
- A Distinctively Structured Curriculum Featuring Practicum and Thesis Components.
- Faculty Team of Experienced Academicians and Practicing Professionals.
- Well-Equipped Facilities of modern equipment and resources.
- Flexible Pathways, options for both direct Master's entry and progression from Postgraduate Diploma.
- Global Recognition, the program is designed to align with international standards and prepare nurses for the global market.
